

AXEL SIMMS

Senior AI Engineer • Fullstack & AI Engineer
Atlanta, GA • axel@axiomintel.ai • linkedin.com/in/axelsimms

EXECUTIVE SUMMARY

Visionary engineering leader with **8+ years** converting business challenges into scalable products. Proven track record shipping high-performance, low-latency services, founding an AI consultancy, and delivering **\$500k+** business value for enterprise clients. Deep expertise in LLMs, vector search, and end-to-end MLOps, paired with a coaching mindset that lifts team productivity **40 %+**.

CORE TECHNICAL STRENGTHS

- **AI / ML:** LangChain, LlamaIndex, TensorFlow, PyTorch, RAG, Vector DBs (FAISS, Pinecone, Weaviate), custom LLM fine-tuning, computer vision, MLOps (Airflow, Kubeflow)
 - **Backend:** Python, TypeScript, FastAPI, Django, Node.js, GraphQL, REST, async microservices, event-driven design
 - **Cloud & DevOps:** AWS (EKS, Lambda, EMR), GCP, Docker, Kubernetes, Terraform, GitHub Actions, Prometheus, Grafana, OpenTelemetry, CI/CD
 - **Data & Streaming:** PostgreSQL, MongoDB, Redis, ClickHouse, Kafka, RabbitMQ, Spark
 - **Frontend & Mobile:** React, Next.js, Vue, Angular, React Native, Expo
-

PROFESSIONAL EXPERIENCE

Senior AI Engineer — Axiom Intelligence

Atlanta, GA · Jan 2025 – Present

- **Autonomous Marketing Engine:** multimodal AI platform handling content creation and outreach

- **Enterprise Lead Intelligence (RAG + agents):** 1200 qualified leads/month @ 34 % accuracy
- Authored internal "AI Playbook" helping other engineering teams.

Senior Software Engineer — 360insights

Remote · Mar 2023 – Dec 2024

- Built new features and microservices for a scalable, dockerized microservices architecture
- Rolled out AI-assisted dev framework (LLM code reviews & evals) trimming feature lead time **45 %** and raising quality **35 %**.

Software Engineer — Breaktime Media

Boston, MA · Jun 2021 – Feb 2023

- Led Gatsby monorepo + React Native expansion, landing **\$150 K** in new contracts; doubled mobile engagement.
- Added AI-generated testing suite (Percy, Cypress) cutting QA cycles **70 %**.
- Led the research and development for a Gatsby-themed monorepo that allows for the faster launch of niche content platforms. Enabled four new client deals, \$150k in revenue, and over a thousand sign-ups
- Contributed to a sitewide sweepstakes component connected to a custom React CMS and NoSQL database (MongoDB)
- Led the development of an automated visual regression pipeline with Percy.io, Github Actions, and Cypress to save time in the QA process and encourage more test-driven development (TDD)

Lead Developer — Axiom Web Studio (Freelance)

Remote · Jan 2020 – Dec 2024

- Delivered 25+ bespoke React/Next.js & CraftCMS sites
- Built, deployed, and maintained sites with high uptime and thousands of assets.
- Front end development and maintenance in React and Gatsby.
- Creating custom sites in Squarespace for clients

Software Engineer — HubSpot

Cambridge, MA · Jul 2019 – May 2021

- Reduced clickstream event loss 0.6 % → **0.03 %** by tuning Kafka consumers & adding Redis retry.

- Created React component library used by 50+ customers, accelerating template dev **60 %**.
- Developed a CLI test tool in python for scaffolding site templates and business logic modules

Web Developer — Tank Design

Boston, MA · Aug 2018 – Jun 2019

- Migrated legacy WordPress to headless Next.js; LCP 4.8 s → **1.9 s**, +18 % organic traffic.
 - Rolled out Storybook design systems across 20+ projects; kept 98 % client satisfaction.
 - Created 11+ client projects end to end from scratch, sitting in on client meetings
-

SELECTED ML & INNOVATION PROJECTS

- **Semantic Search Portal:** Hybrid BM25 + embeddings search over PDFs; FastAPI, FAISS, LangChain; single-tenant Helm deployment.
 - **Auto-Scaling GPT Gateway:** Ray-based batching with OpenTelemetry; p95 latency < 200 ms under 5× load.
 - **Crypto Sentiment Analyzer:** LangChain pipeline ingesting 100 k social signals/day (91 % accuracy); React + D3 dashboard.
 - **ElutherAI open researcher:** working with a team of ML Engineers on GraphRAG systems over scientific papers
-

LEADERSHIP & MENTORSHIP

- 4 years tech-lead experience (teams 5–8 engineers).
 - Formal mentor to multiple engineers
 - Community mentor on multiple ML Discord groups.
-

EDUCATION

B.S. Cell Biology & Computer Science, Northeastern University
